# LID 560

- Smallest portable reader
- Simple operation
- LCD Display
- Low cost, economical scanning solution

The LID-560 Pocket Reader is a low-cost portable reader for applications that do not require maximum read range performance. Typical applications include dog breeders' individual operations and pet I.D. in veterinary practices. With its easy point-and-shoot operation, it is designed for situations where no communication with an external PC or terminal is required. The reader scans a tag and displays the ID number on its LCD. A quick push of the button shows the last tag number read.

**DIMENSIONS**

<b>Width</b>	<b>69.8 mm (2.7 in)</b>
<b>Length</b>	<b>125.4 mm (4.9 in)</b>
<b>Height</b>	<b>24 mm (0.9 in)</b>

**WEIGHT****120 gr.****SUPPLY VOLTAGE****9 V battery (not supplied)****SUPPLY CURRENT**

<b>Antenna activated</b>	<b>173 mA</b>
<b>Antenna deactivated</b>	<b>26 mA</b>

**BATTERY LIFE****Approx. 1 hour (continuous read)****DISPLAY****LCD (2 lines x 16 characters)****TYPICAL READING TIME****24 ms****MATERIAL****ABS UL 94 H****OPERATING TEMPERATURE****0°C - 70°C****READING DISTANCE**

<b>ID-100A</b>	<b>up to 40 mm (1.58 in)</b>
<b>ID-200</b>	<b>up to 60 mm (2.36 in)</b>
<b>ID-300</b>	<b>up to 45 mm (1.77 in)</b>
<b>ID-400</b>	<b>up to 110 mm (4.33 in)</b>

**ACCESSORIES**

<b>PA-570R</b>	<b>Rechargeable 9V/160mA Battery</b>
<b>LG-570</b>	<b>9V Battery Charger</b>
<b>BT-570</b>	<b>Protective rubber boot</b>
